

Application Letter

During the past months, as Giovani Europeisti Verdi, we had the opportunity to be in close contact with FYEG and its MOs. For instance, with the initiative of a joint letter addressed to European Union Institutions for asking the issuing of Coronabonds and greater solidarity among Member States during the COVID-19 crisis. Solidarity is the core of our movement, in periods of emergency and peace, and coming to know each other, we understood that it is a shared dogma along with many others. This short period of working collaboration has also given us the chance to come together with young activists from all around Europe, and thus, to start building new relationships with other MOs. Since the first time we have come into contact, we had space to better figure out how FYEG works on a daily base and to meet the stunning and competent people which animate the Federation.

As Giovani Europeisti Verdi, starting from our name, we strongly believe in a united and collaborative Europe. FYEG has been known for its mission to run activities at European level, but mostly on the street, and we completely share this approach which has the ability to accurately combine lobbying Institutions and running advocacy campaigns among people.

For these reasons, we believe that the Federation of Young European Greens, as main pan-European organization close to our value and principles, can be our home at international level.

We consider the green movement the only answer useful to change the future of our country and our generation perspectives. Although, we are also aware that this challenging historical time cannot be faced alone, and above all, it should not handle with a narrow view limited to national interests. We are conscious of our current lack of experience and global sight on certain thematic we want to fight. Therefore, we need the help of all European Green family to mature, be more successful in our campaigns, and have a space for discussion and encounter. This is why we are engaging with the present application and asking to join FYEG as a candidate member.

Greenest Regards,
Giovani Europeisti Verdi Executive Board.
