

Prague, 15. July 2020

**Dear Executive Committee of the Federation of Young European Greens,**

I am writing to you on behalf of 'Mladí a Zelení' or 'Czech Young Greens', an emerging youth organisation based in the Czech Republic. Our organisation of Czech green youth has re-emerged and would hereby like to apply for a membership in the Federation of Young European Greens.

We remain an organisation of young people who embrace green values, are committed to social, environmental and economic justice, to contributing to an inclusive society, to promoting equality and to fighting for the rights of animals. These are topics that are increasingly popular among young people in our country. We are here to offer a platform that enables discussion and engagement with these contemporary issues and educates young people regarding these topics.

We achieve our goals through uniting, assisting and supporting young individuals. We also welcome joined activities with movements such as Fridays for Future or similar minded green NGOs. In some respect, we also cooperate with the Czech Green Party, so our members have an opportunity to gain political skills, in particular with regard to negotiating and problem-solving.

Over the years, we had a great experience with FYEG, which is why we are enthusiastic about returning to the European green family. We still believe that our values closely match those of the FYEG, and we would like to return to continue contributing to its aims. We expect to meet similar minded organisations within FYEG, learn new things and engage in discussions.

Thank you very much in advance for considering our application.

Sincerely

Patricie Startlová

(Co-spokesperson of the Czech Young Greens signing on behalf of the Board)
