

OFFICIAL LETTER TO THE EC OF FYEG FROM THE BOARD OF YOUTH FORUM URA

Reasons for the application for membership at FYEG

Dear EC of FYEG,

We hope that this letter finds you well. As a youth organization of civic movement URA, which is also a member of European Green Party, we are applying for membership at the Federation of Young European Greens.

Since the previous GA we got to know each other as organizations through events organized by you, your member organizations and/or third parties. As we cherish the same values and our intention are to decisively fight for climate justice, as our coastlines are jeopardized by raising sea levels caused by developed nations. We hope to raise our voice through the next decades as the effects of climate change have become more apparent, in not only in our country, but in the whole world as well. Our organization operates in a region with fierce far-right competition and through our activism, and political engagement (in local parliaments and through our representatives in the government) we fight discrimination by gender and ethnicity on a daily basis. Social justice and democracy are one of our core principles. We are number one Montenegrin political youth organization when it comes to fighting for the environment, which we showed through our opposition towards oil drilling in the Montenegrin sea bed. Throughout recent years we were defending Montenegrin rivers from exploitation by mini hydro-powerplants which were not built by proper standards in respect to the environment. We are fascinated by the global green movement and want to participate actively on a long-term basis. Our organization started as a handful of people with a vision of a greener future for our country. Today we measure in hundreds of members, we are getting bigger by each day.

Now we represent the only political option in Montenegro that deeply cherishes EU and also Green values, we were built on strong principles of equality, justice and democracy.

We are looking forward to the GA, Yours sincerely,

Presidency board of Youth Forum URA

Ljiljana Jokic
President of Youth Forum URA
