

*ANTONIO G.
GONZÁLEZ*

@ANTGARGON96

To the FYEG's MOs, EC, Office and every activist:

The following words are an answer to two big questions: Why do I want to present myself to the FYEG Executive Committee and what can I do to improve this organization?

Let's not fool ourselves, these are two complex questions. On the one hand, I am presenting myself to be able to contribute my work and my experience to the current executive during the next 4 months until the assembly. Working and supporting the executive in the face of the Assembly and in a situation where youth and green and equity policies are essential for the future of Europe makes me very excited to be able to work.

On the other hand, as a roadmap, I would like to improve the relations between the Member Organisations by making them understand that geography is a factor and the starting points of each organization and each country are important to be able to achieve equity and social and climate justice for people.

The application of gender mainstreaming, queer and youth perspective in the activities, actions, documents and any approach of the FYEG must be a fundamental basis for the work of the FYEG.

I also think it is essential to improve the training of the activists that make up the FYEG, from the most current issues, to the perspective in which every activist must be trained, whether it is gender, LGBT+ community, youth, environment, and climate change or social justice and equity itself.

With these words I think I reflect my objectives for the coming months, they may be ambitious but as my mother taught me: you have to fight to want the maximum to achieve the minimum to continue progressing.

Kind Regard,

Antonio G. González
